

Promise perfection – deliver perfection

HARLOR Building Services is a family owned business that has been operating in Nowra for over four years.

The team at Harlor Building Services pride themselves on their integrity, individuality, and their ability to spring dreams to reality.

Their philosophy is to promise perfection and to exceed expectations.

"Our high standards and individual craftsmanship is what makes us stand out," said Lucas Harlor one of the founders of Harlor Building Services.

"We don't compromise on quality, we always try to be innovative with materials, are conscious of

the environmental impact, and look toward eco products and sustainability."

With a strong commitment to client needs and a high regard for the individual budget, Harlor Building Services have come out a cut above the rest in the construction industry.

"We work closely with clients to discuss their needs and desires, and work with them toward their individual style," Mr Harlor said.

Harlor Building Services received two Master Builders' Association awards this year, the 2012 Best Renovation and Addition, and the 2012 New Builder of the Year.

Local business to celebrate 35 years in the Shoalhaven

THE year of 2012 is shaping up to be a huge year for Hanlon Windows Australia Pty Ltd, celebrating its 35th anniversary.

Hanlon Windows was first established by Brian and Judy Hanlon in the late 1970s.

Their vision was to set up a small family business in the Shoalhaven. Brian and Judy initiated this small family business from a two-car garage in Shoalhaven Heads as a reseller of aluminium windows and doors.

With Brian a carpenter by trade and having greater industry knowledge, this small family business soon became a growing success.

Hanlon Windows has now moved into a second generation family business with Brian and Judy's son Chance taking on the role of managing director.

Chance will also pass a major milestone this year completing 30 years in the industry.

Hanlon Windows is a 100 per cent Australian owned and operated manufacturer of aluminium and timber windows and doors.

It has grown to become one of the largest privately owned window and door manufacturers in the country.

"We pride ourselves on supplying the highest quality windows and doors

Chance Hanlon, Hanlon Windows managing director.

combined with excellent customer service," Mr Hanlon said.

And in a time when energy efficiency is becoming paramount, Hanlons is one of the highest sellers of energy efficient glass in the state. "There are a lot of energy efficient products available now, such as LowE glass and Thermally Broken aluminium frames and we are proud to be one of the leaders in promoting these sustainable and cost

effective options," Mr Hanlon said.

Windows and doors are a major feature of any home or building, adding character, warmth and value.

They can make your home more inviting from the outside, appear more spacious from the inside and add to the value of your home.

More importantly they can provide improved safety and security for you and your family.

Hanlon Windows has three showrooms in operation located

in Bomaderry, Wollongong and Sydney, with sales teams selling its high performance products to all of parts of South East NSW.

Their head office and manufacturing facilities are still locally based at 41 Bolong Road, Bomaderry and they are a leading Shoalhaven employer.

Hanlon Windows is a finalist in the employer of choice and the business leader (Chance Hanlon).

Founders of the Harlor Building Services, Louise and Lucas Harlor.
